

## Milestone 4 Design Document

Design Drawings - I liked how these came out and these are what I wanted it to look like.

### Map of the clinic

### Register Patient

The "Register Patient" form is displayed within the "Clinic Management System" window. The window has a menu bar with "File" and a toolbar with "Map of Clinic", "Register Patient", "Register Staff Member", and "Fire Staff Member". The main area is titled "Register Patient" and contains the following fields and buttons:

Please enter the following information to register a new patient.

**Patient Information.**

Patient First Name:

Patient Last Name:

Date of Birth:

**Visit Record Information**

Visit Record Date:

Visit Record Time:

Visit Record Complaint:

Visit Record Temperature (°C):

## Register Clinical Staff member

## Adding a visit record to an already existing patient

Add Visit Record to Aandi Acute

**Visit Record Information**

Visit Record Date:

Visit Record Time:

Visit Record Complaint:

Visit Record Temperature (°C):

UML Diagram - Not much has changed since the other milestones for the models. Just added a controller and GUI views. Models pretty much stayed the same.
